

Electromyography Training Resources

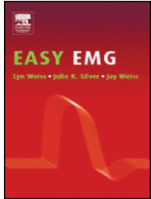

1. BOOKS

The following support materials are available directly from NeuroMetrix. Contact NeuroMetrix Customer Service at 888.786.7287 to order.

Easy EMG

\$43 plus shipping

Weiss et al, 2004, 271 pages, paperback

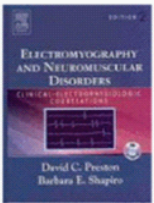

Easy-to-read and well-organized, this one-of-a-kind resource offers a basic introduction in both electromyography (EMG) and nerve conduction studies (NCS). Inside, readers will find expert guidance on how to perform and interpret EMGs as well as the fundamental principles of electrodiagnostic testing. Readers will also find coverage of the testing of the most common conditions encountered in daily practice.

Electromyography and Neuromuscular Disorders

\$170 plus shipping

Preston and Shapiro, 2007, 685 pages

Excellent coverage of the fundamentals of nerve conduction studies and EMG and clinical-electrophysiologic correlations. The accompanying CD illustrates the majority of waveforms encountered during needle EMG.

The following books are available through Amazon, Barnes and Noble, or other online stores:

Electromyography in Clinical Practice: A Case Study Approach (ed. 2) – \$99

Katirji, 2007, 417 pages, ISBN: 978-0-323-02899-8

Cases from the Cleveland Clinic are presented as clinical unknowns with accompanying nerve conduction and electromyography results. The author highlights the reasoning used to arrive at the correct electrophysiological and clinical diagnosis. This text is for readers who already possess a basic understanding of clinical neurophysiology.

Entrapment Neuropathies – \$24

Dawson et al., 1999, (Amazon), ISBN: 0316177334

Excellent coverage of all upper and lower extremity nerve entrapment disorders.

2. ONLINE AND CD/DVD-BASED COURSES

The following courses can help you develop practical skills in performing nerve conduction studies and needle EMG:

Available from Casa Engineering :: www.casaengineering.com/emgmain

EMG on CD/DVD Series

Vol 1: Muscle Anatomy – \$399

Vol 2: Instrumentation, Insertional & Spontaneous Activity, Motor Unit Potential Analysis, Interference Pattern Analysis – \$624

Vol 3: Sensory Nerve Conduction Studies – \$364

Vol 4: Motor Nerve Conduction Studies and Late Responses – \$499

Available from TeleEMG :: www.teleemg.com

Nerve Conduction Training DVD – \$224

Needle EMG Training DVD – \$448

Or both for \$600

See reverse for information on Live Courses.

2. ONLINE AND CD/DVD-BASED COURSES - continued

Available from AAPM&R :: http://me.e-aapmr.org/casestudies_emg.aspx

EMG Case Studies

A programmed learning series of case studies in electrodiagnosis.

EMG Case Nos. 76-99 - \$15/ea.

3. LIVE COURSES

Listed below are live courses presented by various organizations. NeuroMetrix will update this list periodically.

TeleEMG's Nerve Conduction and Needle EMG Course and Training Workshop

June 6-7, 2009 San Antonio, TX

The course and workshop format includes didactic presentations, technical demonstrations, nerve conduction and needle EMG videos, and discussions and workshops in a group setting to ensure optimal learning and participation. Participants will have the opportunity to interact directly with faculty during these discussions and hands-on demonstrations.

To register go to www.teleemg.com/courses/sacourse.htm

Larry Head Institute, LLC

Nerve Conduction Studies (NCS)

June 19-20, 2009 Holiday Inn & Suites, Ann Arbor, MI

October 9-10, 2009

2-Day Course – 16 ACE Credits

Lectures and extensive hands-on workshops form the basis for this comprehensive two day course designed for the beginner and experienced technologist seeking to improve their knowledge and skills and / or prepare for the national registry examination. Topics covered include: Overview of Nerve Conduction Studies, Instrumentation, Anatomy and Physiology of Nerve and Muscle, Testing Protocols, Hands-On Workshops, and Troubleshooting and Pitfalls.

To register or for more information, visit: www.larryheadinstitute.com/nerve_conduction_studies.html or contact Mary Harvey, IOM/NCS Program Director at 898-907-8916 or maryharvey@larryheadinstitute.com

All prices are current as of 4/6/2009. Prices are subject to change.
